BetaCool

Engineering & Technical Services

...Cool Air, Cool Life

COMPANY PROFILE

Who we are

BetaCool Engineering Limited is a wholly Nigerian incorporated cooling and ventilation design and installation firm, created out of the flaming passion of the founder for constantly seeking the uncluttering cooling needs of people at homes, offices, supermarkets, restaurants, hotels, hospitals etc.

The company started operation on the 5th of Nov, 2016. We are located at 34, Omotayo Banwo Street, Ogudu Ori-Oke, Ogudu, Lagos.

BACKGROUND

What we do

We provide our clients with the best possible refrigeration and air conditioning services. This we hope to do by carrying out the job based on our clients' scope and desire using our professional skills and ideas to achieve the best possible results in order to satisfy them.

BACKGROUND

Our Services

We design, procure, install and maintain Heating, Ventilation and Air Conditioning (HVAC) Systems to meet industrial, commercial and residential requirements.

Maintenance

Our maintenance programme is based on a yearly agreement between us and our clients. The programme is carried out in two ways as stated below:

Preventive Maintenance

This is the servicing of our clients air-conditioning units on quarterly bases for a period of a year after which a renewal of maintenance contract is carryout.

Corrective Maintenance

This has to do with the repairing of our clients air-conditioning units anytime they are faulty.

BACKGROUND

Vision

To be one of the highly reputable air conditioning firms in Nigeria.

This we intend to achieve by focusing on the above objective.

Once our customers are happy then the job is well done.

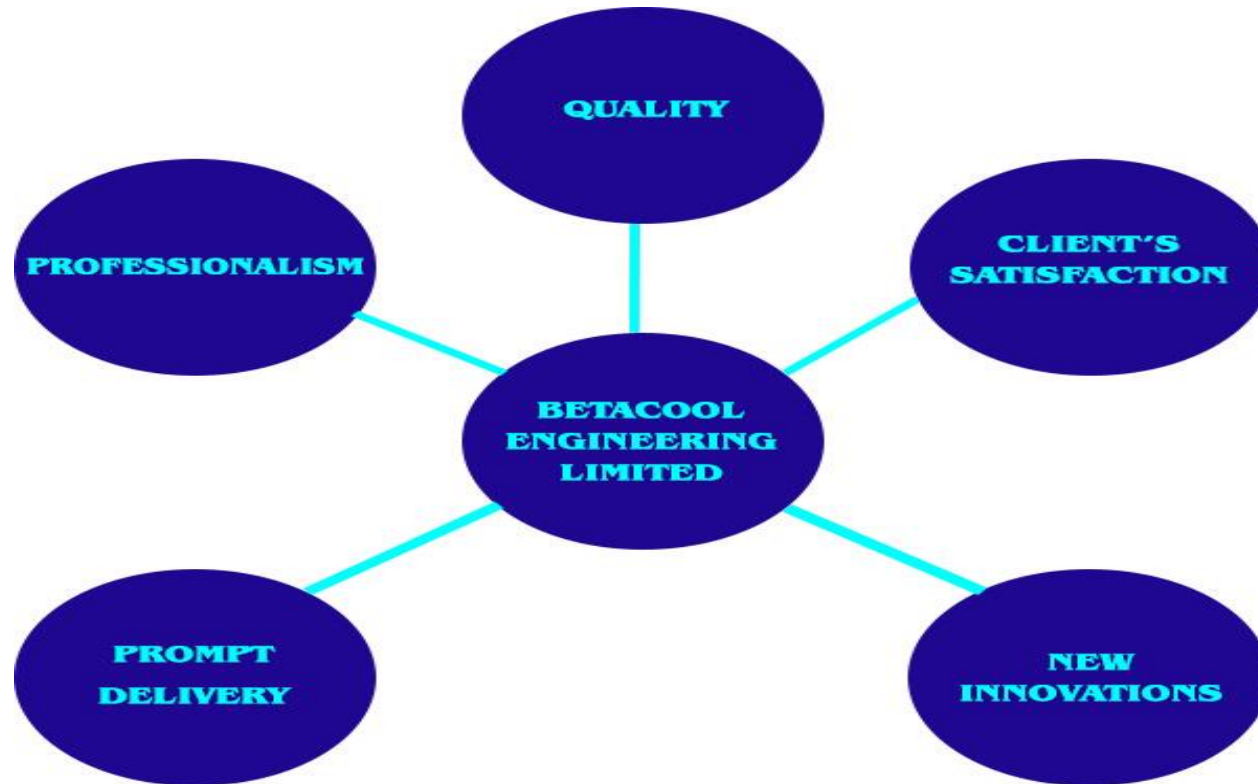

Mission

To provide our clients with the best possible air conditioning services. This we hope to do by carrying out the job based on our clients' scope and desire using our professional skills and ideas to achieve the best possible results in order to satisfy them.

STRATEGY & VISION

Our Core Value

STRATEGY & VISION

Why you should do business with us
